Expand Imagination and Unleash Creativity

Inspire Learning

Maximize creativity in every student with the StarBoard T-17SXL, an LCD pen display with the full functionality of an interactive whiteboard. Deliver interactive lessons and write digital notes, while your students view the same visuals projected onto a large screen.

Interactive Environment

Make education an unforgettable experience by utilizing a library of interactive tools that can turn static lessons into dynamic activities. Mark up images, presentations, and multi-media files with digital inks to illustrate your point and transform reluctant learners into confident participants.

Designed for Education

The interactive pen display integrates seamlessly into any existing teaching style with its attractive size and low-profile design. Conveniently placed on a desktop or lectern, the bright 17" display provides more working space and a clear image with SXGA resolution that works well with high-resolution LCD projectors.

Features

1. Function buttons
2. Page up/page down
3. Power button
4. LCD/Active area
5. Speakers
